INDEX

Practical No.	Question
P1.pdf	
1 (A)	Develop a simple "Hello World" Android application demonstrating project creation, Android Studio interface, Android components, AVD creation, and application execution.
1 (B)	Develop an Android application demonstrating the use of Programming Resources (colors.xml, themes.xml, strings.xml, dimens.xml, drawable resources) and apply them in UI components.
1 (C)	Develop an Android application demonstrating complete Activity Lifecycle methods and analyse execution using Logcat.
P2.pdf	
2 (A)	Develop an Android application to create and integrate a Fragment and demonstrate Fragment lifecycle methods.
2 (B)	Develop an Android application implementing Fragment-based UI navigation between multiple screens.
2 (C)	Develop an Android application demonstrating communication between Activity and Fragment.
P3.pdf	
3 (A)	Develop an Android application using LinearLayout (Horizontal and Vertical) to design structured UI.
3 (B)	Develop an Android application using RelativeLayout to align UI components dynamically.
3 (C)	Develop an Android application using TableLayout to design a structured Login/Registration Form.
P4.pdf	
4 (A)	Develop an Android application using ScrollView to display long scrollable content.
4 (B)	Develop an Android application using AbsoluteLayout demonstrating fixed positioning.
4 (C)	Develop an Android application using FrameLayout to overlay UI elements.
P5.pdf	
5 (A)	Develop an Android Application using ListView with ArrayAdapter and implement item click handling.
5 (B)	Develop an Android application using GridView with Custom Adapter and image selection handling.
5 (C)	Develop an Android application implementing RecyclerView as a modern alternative to ListView
P6.pdf	
1 (A)	Develop an Android application implementing AppBar (Toolbar) and Options Menu.
1 (B)	Develop an Android application demonstrating AlertDialog and custom DialogFragment.
1 (C)	Develop an Android application implementing contextual menus and popup menus.
1 (D)	Develop an Android application implementing Explicit and Implicit Intents.
P7.pdf	
2 (A)	Develop an Android application implementing Explicit and Implicit Intents.
2 (B)	Develop an Android application demonstrating Event Handling using Listeners (OnClick, OnLongClick, etc.).
2 (C)	Develop an Android application using Adapters to populate Spinner or ListView dynamically.
P8.pdf	
3 (A)	Develop an Android application implementing started and bound service.
3 (B)	Develop an android application implementing Notification Manager.
3 (C)	Develop an android application implementing static and dynamic broadcast receivers.
P9.pdf	
4 (A)	Develop an Android application implementing SQLite database CRUD operations:.
4 (B)	Develop an Android application integrating SQLite database with ListView or RecyclerView to display, add, update, and delete records.
4 (C)	Develop an Android application to fetch JSON data from a web API and parse/display it in the Android application.
P10.pdf	
5 (A)	Develop an android application demonstrating Threads and Handlers for Background processing.
5 (B)	Develop an android application implementing Media APIs and Telephone APIs.
5 (C)	Develop an Android application implementing RunTime Permission and security handling in AndroidManifest.xml.
